

Cisco Unified Wireless IP Phone 7925G

Cisco[®] Unified Communications is a comprehensive IP communications system of voice, video, data, and mobility products and applications. It enables more effective, more secure, more personal communications that directly affect both sales and profitability. It brings people together by enabling a new way of communicating in which your business moves with you, security is everywhere, and information is always available — whenever and wherever it is needed. Cisco Unified Communications is part of an integrated solution that includes network infrastructure, security, mobility, network management products, lifecycle services, flexible deployment and outsourced management options, end-user and partner financing packages, and third-party communications applications.

The power of the Cisco Unified Communications family of products extends throughout the enterprise, delivering a powerful, converged wireless solution with intelligent wireless infrastructure and an innovative new product: the new Cisco Unified Wireless IP Phone 7925G (Figure 1). This device delivers on-campus mobility to users using voice over wireless LAN (VoWLAN).

Features

The Cisco Unified Wireless IP Phone 7925G is designed for users in rigorous workspaces as well as general office environments. It supports a wide range of features for enhanced voice communications, quality of service (QoS), and security. Some of the main benefits and highlights are listed here:

- IEEE 802.11 a/b/g radio
- · Two-inch color display
- Bluetooth 2.0 support with Enhanced Data Rate (EDR)
- IP54 rated for protection against dust and splashing water
- MIL-STD-810F standard for shock resistance
- Long battery life (up to 240 hours of standby time or 13 hours of talk time)
- Built-in speakerphone for hands-free operation
- Exceptional voice quality with support for wideband audio
- · Support for a wide range of applications through XML

Table 1 provides a list of the features, Table 2 summarizes wireless characteristics, Table 3 lists specifications, and Table 4 provides certification and compliance information.

Table 1. Features

Features	Description
Features	Six line appearances
	Abbreviated dialing
	Adjustable ringing and volume levels
	Adjustable display brightness and timeout
	Any-key answer
	Audible and vibrating ringers
	Auto-answer
	Auto-detection of headset and auto-answer from headset
	Automatic keypad lock
	Barge
	Callback
	Call forward
	Call history lists
	Call park
	Call pickup
	Call timer
	Call waiting
	Caller ID
	• cBarge
	Corporate directory
	Conference
	Direct transfer
	Extension mobility service
	Fast-dial service
	Group call pickup
	Hold
	 Hotkey for keypad lock, vibration and ring toggle, and voicemail access
	Immediate divert
	• Join
	Last-number redial
	Malicious-caller ID
	Message-waiting indicator
	Meet-me conference

 Specifications

Item	Description
Dimensions (H x W x D)	5.0 x 2.0 x 0.8 in. (12.7 x 5.2 x 2.0 cm)
Weight	4.8 to 5.0 oz (138 to143g) depending on battery pack
Battery	 Standard lithium-ion (Li-ion) battery life: up to 9.5 hours talk time and 180 hours standby Extended Li-ion battery life: up to 13 hours talk time and 240 hours standby Actual battery life varies significantly based on environmental factors and Bluetooth use
Input Power	 Phone: 100 to 240 VAC, ~0.2A, and 50 to 60 Hz AC adapters (by geographical region)
Operating temperature	32 to 104℉ (0 to 40℃)
Storage temperature	−22 to 140℉ (-30 to 60℃)
Relative humidity	10 to 95% (noncondensing)
Vibration	1.5 Grms maximum, 0.1 in. (2.5 mm) double amplitude at 0.887 octaves per minute from 5–500–5 Hz sweep, and 10-minute dwell on three major peaks in each of the three major mutually perpendicular axes
Thermal shock	–22°F (–30°C) 24 hours; 158°F (70°C) 24 hours
Altitude	Certified for operation: 0 to 6500 ft (0 to 2 km)

Endurance	IP54 MIL-STD-810F, Method 516.5, Procedure I
Headset	Wireless: Bluetooth 2.0 Wired: 2.5 mm (4-conductor tri-band)
Connector	Mini USB

Ordering Information

Note: All Cisco Unified IP Phones require the purchase of a phone technology license, regardless of the call protocol being used.

Tables 5 and 6 provide ordering information for the Cisco Unified Wireless IP Phone 7925G.

Warranty

Cisco Unified IP Phones are covered by a Cisco standard 1-year replacement warranty. A Cisco SMARTnet® optional service agreement is available for the Cisco Unified Wireless IP Phone 7925G and Multi-Charger only, not for other accessories, such as batteries.

Note: This product is not a medical device and may use an unlicensed frequency band that is susceptible to interference from other devices or equipment.

Cisco Unified Communications Services and Support

Using the Cisco Lifecycle Services approach, Cisco and its partners offer a broad portfolio of end-to-end services to support the Cisco Unified Communications system. These services are based on proven methodologies for deploying, operating, and optimizing IP communications solutions. Initial planning and design services, for example, can help you meet aggressive deployment schedules and reduce network disruption during implementation. Operate services reduce the risk of communications downtime with expert technical support, and optimize services enhance solution performance for operational excellence. Cisco and its partners offer a system-level service and support approach that can help you create and maintain a resilient, converged network that meets your business needs.
